20th Anniversary

HSC Listserv Survey

How Far We've Come:

In 1999 the Appalachian Regional Commission Collaborative Communications Project, in conjunction with the Human Services Coalition and Tompkins County Planning, helped 22 agencies obtain funding to upgrade computer capabilities and provide technical assistance and training fit for the 21st Century.

This award also allowed the Coalition to create our beloved HSC Listserv in an effort to help nonprofit organizations better connect with one another and the local community.

2019 marks the 20th Anniversary of the HSC Listserv and in celebration we asked our 3,100 subscribers to tell us a bit about themselves and how they utilize this community resource.
