2B. Experience of Applicant, Subrecipient(s), and Other Partners

1. Describe the experience of the applicant and potential subrecipients (if any), in effectively utilizing federal funds and performing the activities proposed in the application, given funding and time limitations.

The Salvation Army (TSA) is a religious and charitable organization that has served the Ithaca community for nearly 130 years with a wide range of services designed to assist low-income families and individual to break the cycle of poverty. TSA in Ithaca is a part of the Empire State Division that oversees services throughout 48 counties in Upstate New York and has a stable funding base with a creative blending of fund development actions to ensure the continuity of services to those we serve. The experience and knowledge of TSA and its active local Advisory Board for Ithaca will play a critical role in the success of this proposed Pathway of Hope Rapid Re-Housing project. TSA in Ithaca is committed to the City's goals of ending and preventing homelessness and supports the mission and efforts of the CoC by providing emergency/crisis intervention services to the homeless and housing vulnerable through street outreach, food pantry and soup kitchen activities. The recent change in Officers at the Ithaca location will allow for full participation in the CoC when meetings resume in the fall and we continue to work in partnership with many local organizations including the Rescue Mission, Catholic Charities and the Department of Social Services to address the challenges faced by families who are experiencing homelessness or housing instability. In addition, TSA in Ithaca is working collaboratively with Ithaca Neighborhood Housing Services, Inc.(INHS) on an anticipated supportive housing project to support community needs for affordable housing and will be applying to be the local provider for shelter and drop-in center services to meet the needs of the homeless. The proposed project will receive oversight from the Ithaca Officers, the Central New York Regional Director of Social Services and the Division's Coordinator of the Pathway of Hope program. The Pathway of Hope Coordinator has nearly 10 years of experience administering, implementing and monitoring HUD funded homeless assistance programs in neighboring Cayuga County.

2. Describe the experience of the applicant and potential subrecipients (if any) in leveraging other Federal, State, local, and private sector funds.

The local Salvation Army operation has an annual operating budget of \$499,395 and includes agreements with the United Way and other local, state, federal and private funding sources. TSA in Ithaca receives administrative services through the Empire State Division office located in Syracuse and has a consistent track record of identifying, leveraging and obtaining private and public funding targeted toward providing critical basic needs services and self-sufficiency skills to low-income individuals and families. During the past fiscal year, the Empire State Divisional Headquarters provided oversight for over 100 contracts with local, state and Federal funders totaling over \$26 million in addition to tracking data, outcomes and required performance measures. In addition, over \$27

million was raised from private foundations, charitable giving and in-kind donations. The Salvation Army is skilled at leveraging all manner of funding to support its social services programs and include Federal sources such as HUD, EFSP and HPNAP in addition to State funding through OTDA and DOH. At the local level, county funding from across the Division is provided for a variety of programming with private sector funds rounding out our funding streams through foundation grants and private donations.

3. Describe the basic organization and management structure of the applicant and subrecipients (if any). Include evidence of internal and external coordination and an adequate financial accounting system.

The Salvation Army in Ithaca has a local and active Advisory Board made up of members of the community whose responsibility it is to monitor fiscal and program standards; provide community connections; recommend strategic direction and assess the need for local program services. The Advisory Board members support the local Salvation Army Officers who provide supervision to the local staff and the Pathway of Hope Coordinator will provide direct program supervision and oversight to the local operations for this housing project. TSA in Ithaca has financial management and oversight provided by the Divisional Headquarters in Syracuse, NY. In addition, the local operation is provided an annual internal audit as a part of the process for the annual independent audit of the Corporation.

3B. Project Description

1. Provide a description that addresses the entire scope of the proposed project.

The proposed project recognizes the Housing First model as a best practice approach to connect those experiencing homelessness to housing quickly and without pre-conditions. Rather than creating barriers to housing, Housing First reduces the likelihood of a repeat episode of homelessness by providing support with rental assistance and supportive services such as case management, to increase stability across a broad spectrum of social determinants. The project is committed to Housing First without bias toward family income status, financial history, behaviors or a perceived "lack of housing readiness," and ever mindful of the fact that the trauma of homelessness can permanently disrupt family dynamics, health and well-being across all systems. The project will serve at least 10 families at a point in time in the target area with 36 beds available and rental assistance at FMR guaranteed for up to 12 months depending on each family's need. Families will receive long-term case management and supportive services within the family-centered approach of Pathway of Hope that offers best practice, strength-based services and a focus on possibilities rather than problems. POH encourages families to self-identify current strengths and barriers as they work toward goals thus eliminating the possibility of a repeat episode of homelessness. POH works with the entire family to increase the likelihood of self-sufficiency with a coordinated effort that includes the client, the case manager and the community. Supportive services provided to families include transportation, rental and utility assistance among others. Families in need of services including employment and training, mental health, addiction recovery, domestic violence intervention are referred accordingly with continued case manager support and advocacy. Families meet with a case manager at least one time per week and structured assessment tools measure progress at three month intervals. Follow-up case management is available to evaluate housing stability after having left the program to proactively prevent an additional episode of homelessness. The POH case management model is designed to help families address the root causes of poverty and homelessness thus stripping away the barriers that leave families in a perpetual state of crisis. Anticipated outcomes when a family exits the program will include an increase in earned income, housing stability and the acquired skills to maintain employment and permanent housing. Families will be referred to the POH RRH program directly from shelters or other service providers with case managers working to identify families who may be living on the streets or other places not fit for human occupancy. All client data is entered into HMIS and Service Point Client Data Management Systems. The POH Regional Coordinator will supervise case management activities by meeting with case managers bi-weekly in the target area.

2. structure, or no structures, complete only column A. If multiple structures, complete one column for each structure.

Note: To expend funds within statutorily required deadlines, project applicants must be able to begin assistance within 12 months of conditional award. The one exception is for applicants who are conditionally awarded sponsor-based and project-based rental assistance. These conditional award recipients will have 24 months to execute a grant agreement; however, HUD encourages all recipients conditionally awarded funds to begin assistance within 12 months. The estimated schedule should reflect these statutorily required deadlines.

4A. Supportive Services for Participants

1. Applicants requesting funds to provide housing or services to children and youth, with or without families, must establish policies and practices that are consistent with and do not restrict the exercise of rights provided by subtitle B of title VII of the McKinney-Vento Act (42 U.S.C. 11431, et seq.), and other laws (e.g. Head Start, part C of the Individuals with Disabilities Education Act) relating to the provision of educational and related services to individuals and families experiencing homelessness. Projects serving households with children or youth must have a staff person that is designated to ensure children or youth are enrolled in school and connected to the appropriate services within the community. Reminder: failure to comply with federal education assurances may result in Federal sanctions and significantly reduce the likelihood of receiving funding through the CoC Program Competition.

Please check the box that you acknowledge you will be required to meet the above requirements if you have any qualifying participants.

2. Describe how participants will be assisted to obtain and remain in permanent housing.

The Pathway of Hope model is a process of developing a team that includes the client, the case manager and the community. Case managers work intensively with the entire family to help them achieve short and long-term goals through collaboration and accessing community resources. Case Managers meet with families as often as necessary at the onset, weekly thereafter and will assist families should a crisis arise. Available housing units in the target area will be assessed to ensure that not only are families quickly housed but that housing is safe and appropriate for program participants. Families are assessed at program entry to determine where income deficits and other barriers exist that create housing instability but families are obtain housing with the assurance that rent will be paid for up to one year should no income be present. The proposed project uses research based and carefully designed assessment tools to measure a readiness for change and self-sufficiency baseline.

3. Describe specifically how participants will be assisted both to increase their employment and/or income and to maximize their ability to live independently.

The case manager will work with the head of household to increase employment related skills thus decreasing the chance of a repeat episode of homelessness and increasing the likelihood of self-sufficiency. Supportive services such as rental assistance, transportation assistance, life skills building and financial planning are provided to not just gain but to maintain employment and increase stability. Life skills training will include educating clients on such things as budgeting, repairing credit, banking, landlord/tenant relations and any

additional training the family and case manager identify as needed to assist with family self-sufficiency and housing stability. Referrals will be made to employment and training resources with an emphasis on stable employment that offers a path to workplace advancement. The Salvation Army is a Children's Health Home Care Management Agency and children who have experienced the trauma of homelessness and/or meet care management eligibility requirements in other health-related domains will be provided with a care manager as an additional level of support for the family.
